

Seeger Racing

Seeger Racing is excited to announce that the Original Gutter Guardian will be the primary sponsor again for the upcoming Nashville Superspeedway race August 12, 2006.

The race will be broadcast live on Speed TV at 3:00 PM [est].

Art Seeger will have the in-car camera as at the Pocono 200 which will give the fans an inside look at the driver and what he sees from the car.

Gutter Guardian will have a display booth at the Expo / Fanfair area at the speedway to show case their Gutter Guardian system.

Art Seeger will be at the booth to sign autograph pictures on Friday and Saturday.

"I expect a very good run with our race car this week. It is a high down force car.

At Pocono I was able to go from 40th starting position to 26th in 3 laps with this car.

Look for the Gutter Guardian Pontiac to be strong at Nashville."
