## Dixie HomeCrafters Announces Expansion to New Atlanta Office

(Atlanta, GA) October 15, 2008 – Hugh Harris, CEO of Dixie HomeCrafters, announced today that the company is expanding into a new 14,000 square foot corporate office and warehouse space in the Medlock Oaks Business Center in Norcross. Based in Atlanta since 1991, Dixie HomeCrafters is one of the nation's leading home renovation companies and has been ranked in the top 10 of replacement companies by *Replacement Contractor* magazine.

“This new space will give us the opportunity to expand and keep up with the demand for all of our energy-saving products and services,” Harris says. “With the high price of energy, homeowners are looking to save money with our reflective insulation, triple pane windows and other energy efficient products.”

Among the fastest growing segment of Dixie HomeCrafter's product lines is Diamond Barrier™, a reflective insulation that blocks radiant heat in attics. Dixie HomeCrafters also carries Energy Star Windows, a triple pane glass system that offers lower energy costs and saves furniture, carpets and draperies from UV damage, as well as GutterGuardian clog-free gutter systems, T-Plank Vinyl siding and Soffit and Trim.

In addition to its Atlanta location, Dixie Homecrafters also operates sales offices in Asheville, NC, Baltimore, MD, Birmingham, AL, Chattanooga, TN, Columbus, GA, Greenville, SC, Knoxville, TN, Nashville, TN and Raleigh, NC.
